

RedR and Urban Technical Expertise

Urban Technical Expertise

RedR has funding to support Shelter and WASH Urban Technical Expertise for 3 years

Year 1 Outputs:

- Analysis of skills gaps and where the private sector could get involved
- Urban WASH in Emergencies for experienced humanitarians – running 24 to 27 March
- **Increase in RedR's Technical Support Service Experts in urban specialities**

Shelter Expertise

- Urban Shelter in Emergencies – 5 day course for experienced humanitarians – to run late 2014
- How private sector experts (engineers, planners and others) can support Shelter agencies
 - through technical advice,
 - through short deployments – assessments/project start ups
- Will be trained in humanitarianism, assessments and personal security
- Deployment mechanisms
